

ACS-1903

Lab #11

Due by Friday November 22 at 11:59 pm

- If you have questions during this lab do not hesitate to ask your lab demonstrator.
- All classes **must** have comments at the beginning containing your name and student number.

The files `Song.java` and `Album.java` can be found [here](#). Implement the following business rule:

- An album has several songs
- A song belongs to one album

Develop a program called `LastLab` that creates two albums with two songs each. Then, for each album display the track listing.

Sample output:

```
Album: Disney Compilation
Tracks:
You've Got a Friend in Me, Randy Newman
Let it Go, Idina Mendez
```

```
Album: Abbey Road
Tracks:
Something, The Beatles
Here Comes the Sun, The Beatles
```

Submit the three files

- . `Song.java`
- . `Album.java`
- . `LastLab.java`

to the email corresponding **to your lab section** with a **Subject line** `Lab11`

E.g. if you are registered in lab ACS-1903L-070 then the email address to send to is `1903L-070@acs.uwinnipeg.ca`
