

APPLIED COMPUTER SCIENCE

Assignment #1

Course Number - ACS-3801-050

Course Name – Principles in Information Systems

Hand Out Date October 2, 2020

Due Date: October 19, 2020 – 18:00 pm

20 Marks:

General Instructions:

Working as an individual, prepare a 2-3 page written report (not including the cover page and should be single line spaced) with your answers. Submit your document (MS Word is preferred so feedback can be given) via email to you class lecturer.

1.

This assignment is focused on you discussing how lectures in week 1, 2 and 3 are interrelated. To recap, Week 1 we started discussions around a shared services model that supported primary and secondary activities in Healthcare, in Week 2 the topics focused on Service Descriptions and IT Value and lastly week 3 focused on IT Strategy.

Elaborate how each topic supports an organizational approach to providing services that are aligned to the needs of the organization. Use any kind of examples of healthcare shared services that you are aware of to support your answer. Use external articles from websites, diagrams, images that you feed add to your response.

Ensure you include all references in your appendix.
